In the Matter of Tennessee Valley Authority
(Bellefonte Nuclear Plant, Units 1 and 2)
Docket Nos. (50-438) and 50-439

Dear Bill:

This is in response to your mailgram of August 8, 1974, advising that TVA intends to move equipment onto the Bellefonte site in spite of the fact that they do not have a limited work authorization.

As I advised your wife by telephone, TVA has assured us that they do not intend to do anything that would require a limited work authorization in the absence of such authority. Moving equipment onto their site would not violate AEC regulations.

Sincerely,

William D. Paton
Counsel for AEC Regulatory Staff
