Mrs. Peggy McCutchin
Scottsboro Public Library
1002 South Broad Street
Scottsboro, Alabama 35768

Dear Mrs. McCutchin:

On February 7, 1978, the Nuclear Regulatory Commission sent you the "Tendered Application" for operating licenses for Bellefonte Plant Units 1 and 2. At that time we advised you that a "Formal Application" would be submitted in about 30 or 40 days.

On June 9, 1978, Tennessee Valley Authority submitted its "Formal Application" for the two operating licenses. The "Formal Application" was docketed on June 12, 1978 and consists of the following:

1. Application (General Information) 1 volume
2. Final Safety Analysis Report (FSAR) Volumes 1 - 10
3. Environmental Report (ER) Volumes 1 - 4
4. Radiological Emergency Plan (EP) 1 volume
5. Supplement Reports

We are sending this material to you today. Upon receipt, the "Tendered Application" copies of the Application, FSAR and ER should be taken off the shelf and replaced with the enclosed "Formal Application" in the above stated order.

The Physical Security Plan and Antitrust Information will be submitted under separate cover at a later date and will be sent to you at that time.

We appreciate your assistance in making this information available to the public. If you have any questions concerning the document collection or the procedures described above, please feel free to write or call (301) 492-7536.

Sincerely,
