Dear Ms. Adensam:

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

Please refer to TVA's September 16, 1983 response to D. G. Eisenhut's letter of February 8, 1983 which concerned the resolution of TMI Action Item II.K.3.5, "Automatic Trip of Reactor Coolant Pump." In that response, TVA indicated that a tube rupture analysis for Bellefonte using the RELAP 5 computer code would be submitted in support of the hypothesis that the reactor coolant pump trip would not be initiated for a double-ended tube rupture. This letter documents the June 28, 1984 telecon between K. Mali of my staff and C. Stahle of your staff during which we indicated that the review of this analysis had been delayed. As TVA now expects to submit this information by November 15, 1984, please revise your records accordingly.

If you have any questions concerning this matter, please get in touch with K. Mali at FTS 858-2680.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
