Director of Nuclear Reactor Regulation
Attention: Mr. J. F. Stolz
PWR Project Directorate No. 6
Division of Pressurized Water Reactor (PWR)
Licensing (B)
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

In the Matter of the Application of) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

This letter is in reference to information concerning control of heavy loads (NUREG-0612) as requested in a letter from D. G. Eisenhut to All Licensees of Operating Plants and Applicants for Operating Licenses and Holders of Construction Permits dated December 22, 1980. Because of the revised fuel load schedule for Bellefonte Nuclear Plant, we will submit our response to Phase I (section 5.1.1) of NUREG-0612 described in item 2.1 of enclosure 3 to the referenced letter no later than one year before fuel load.

In accordance with NRC Generic Letter 85-11, we are terminating activities on Phase II (sections 5.1.2 through 5.1.6) of NUREG-0612 (items 2.2, 2.3, and 2.4 of enclosure 3) for which response to NRC is no longer required.

If there are any questions, please get in touch with Amin M. Kamal at FTS 858-2680.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

R. Gridley
