Director of Nuclear Reactor Regulation  
Attention: Mr. J. F. Stolz  
PWR Project Directorate No. 6  
Division of Pressurized Water Reactor (PWR)  
Licensing B  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Stolz:

In the Matter of the Application of ) Docket Nos. 50-438  
Tennessee Valley Authority ) 50-439

Generic Letter 86-05, "Implementation of TMI Action Item II.K.3.5, Automatic Trip of Reactor Coolant Pumps," provided the NRC's conclusions regarding the B&W Owners Group (BWO) submittals made to justify manual reactor coolant pump (RCP) trip in response to Generic Letter 83-10, "Resolution of TMI Action Item II.K.3.5, Automatic Trip of Reactor Coolant Pumps," and guidance concerning implementation. Those applicants who choose not to endorse the BWO methodology were required by Generic Letter 86-05 to submit a schedule for providing the plant-specific RCP trip criteria required by Generic Letter 83-10. This letter is to inform you TVA has adopted the automatic RCP trip approach and has previously submitted our methodology for Bellefonte by correspondence dated March 24, 1983 (D. S. Kammer to D. G. Eisenhut), August 8, 1983 (L. M. Mills to D. G. Eisenhut), September 16, 1983 (L. M. Mills to E. Adensam), July 27, 1984 (L. M. Mills to E. Adensam), and December 13, 1984 (J. A. Domer to E. Adensam).

In order to ensure our responses to TMI Action Item II.K.3.5 are complete and accurate, we are reviewing Generic Letter 86-05 with B&W for applicability to Bellefonte and our responses to Generic Letter 83-10 to ensure the information already provided is current. We will provide any necessary additional or revised information by May 1, 1987.
