Dear Mr. Stolz:

In the Matter of the) Docket Nos. 50-438
Tennessee Valley Authority) 50-439

On January 17, 1986, TVA submitted to NRC the TVA weld program review plan. Part of the weld program review consists of reinspection of selected welds at the Bellefonte Nuclear Plant site. Enclosed for your review is our work plan for accomplishing that reinspection. TVA will not begin reinspection of the welds at Bellefonte until you have reviewed this plan and we have resolved any comments you might have. Therefore, we request you expedite your review of this plan. This workplan and the reinspection results will also be submitted as part of the overall Bellefonte weld program review description currently scheduled for late March 1987.

If you have any questions regarding this plan, please get in touch with Ralph Shell at FTS 858-2474.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
