BELLEFONTE NUCLEAR PLANT (BLN) - TMI ACTION ITEM II.K.3.5, "AUTOMATIC TRIP OF REACTOR COOLANT PUMPS"

Reference: My letter to J. F. Stolz, NRC, dated July 31, 1986

In the above-referenced letter, TVA discussed its plans for a joint TVA/B&W review of our previous responses to TMI Action Item II.K.3.5. This review is being conducted to ensure that information provided to you in our earlier submittals is complete and accurate according to Generic Letter 86-05, "Implementation of TMI Action Item II.K.3.5, Automatic Trip of Reactor Coolant Pumps." At the conclusion of this joint review, TVA would then provide you with any necessary additional or revised information by May 1, 1987.

Because of limited resources, additional time is required to complete this activity. Our new submittal date for the above information is now December 1, 1987. If you have any questions concerning the above, please get in touch with Dennis L. Terrill at (205) 574-8820.

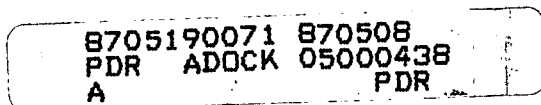

Very truly yours,
