What event are you referring to? I don't see an EN number anywhere in the attached messages. Thanks.

ect

FYI - see attached email. Although this was reported to us, the Medical Team determined this does not meet the thresholds for a medical event. So put in NMED, but mark not reportable.

I agree. Although no dose information was given in the EN, diagnostic administrations of this type are not going to exceed the does thresholds in 35.3045.

I don't think this meets the criteria to be considered a medical event based on 35.3045 (a)(2).
