Dr. Said Abdel-Khalik, Chairman
Advisory Committee on Reactor Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

SUBJECT: RESPONSE TO THE ADVISORY COMMITTEE ON REACTOR SAFEGUARDS
REPORT ON THE SAFETY ASPECTS OF THE LICENSE RENEWAL
APPLICATION FOR THE HOPE CREEK GENERATING STATION

Dear Dr. Abdel-Khalik:

During the 584th meeting of the Advisory Committee on Reactor Safeguards (the Committee), held during June 8-10, 2011, the Committee completed its review of the license renewal application for the Hope Creek Generating Station and the associated final safety evaluation report prepared by the U.S. Nuclear Regulatory Commission (NRC). In the Committee's final report, dated June 16, 2011, the Committee recommended renewal of the Hope Creek Generating Station operating license. The NRC staff appreciates the Committee's thorough review of the plant's license renewal application and the associated final safety evaluation report. In particular, the Committee's review of aging management issues related to buried piping, reactor cavity leakage in the Mark I containment, and inaccessible power cables was especially helpful as the NRC staff finalized its evaluation.

The NRC staff recognizes the Committee's commitment to safety and appreciates its continued support of the license renewal process.

Sincerely,

/RA by Martin J. Virgilio for/
