Steve,

I have requested access for Mark. In addition, some addition information regarding site runoff and wells have been added to the reading room, also under the heading "2.4 Hydrology."

As we discussed in our clarifying conference call, it would be helpful for the NRC to see more detailed copies of our drainage plan drawings and to see background information related to groundwater measurements in the vicinity of the plant. I have uploaded such drawing to the Electronic Reading Room. They are under the heading "2.4 Hydrology" and the sub headings "Drainage Plan" and "Water Levels." I hope these are of value as we prepare for an audit in early June.

I could not find Mark McBride on my list of users for the reading room. If you would like to add him or any others, please send me an email with their name, email address and office phone number.

I think we should go ahead with our follow-up clarification conference call on April 28 - same time and bridge as last time.

Thanks,

Donald R. Woodlan
