Time: 8:15 a.m.

Mail Control or Report No(s). 574700 **License No(s).** 28-31436-01 **Docket No(s).** 030-38435

Name of Licensee: M & W Soils Engineering, Inc.
Name of Participant(s): Randall Rhoades & Sattar Lodhi
Telephone No. 603 826 5873
Subject: No. of gauges and RSO's Training

The application included the model numbers but did not include the number of each model that the applicant wanted to possess. Additionally, the proposed RSO's training certificate was dated September 4, 79.

I call Randall to discuss these items. He stated that they currently possess one Troxler Model 3440, and two Troxler Model 3411, and they do not possess any gauge that contains Ra-226. He also stated that they plan to acquire a few gauges from another licensee. I explained to him the amendment process to include additional gauges and cautioned him to request an amendment to the license prior to acquiring additional material.

I asked him about the proposed RSO's recent training, including the required Hazmat training. He stated that the proposed RSO is an experienced user and is fully familiar with regulatory requirements and his training is current. He also confirmed that he receives Hazmat refresher training annually, including the DOT requirements.
