SUBJECT

MAGNATRAN impact limiter design and benchmarking

SUMMARY (Continue on Page 2)

Participants from NAC International: Tony Patko, Mike Yaksh, Tom Danner, Craig Seaman.

Participants from NRC: Kim Hardin, David Tang, Sara DePaula, Jennie Rankin.

Staff has issued Request for Supplemental Information (RSI) to NAC concerning the MAGNATRAN transportation cask application. A telephone conference was requested by NAC to further discuss the impact limiter design (RSI 2-3). In an effort to minimize the amount of physical testing to be performed at available testing facilities, potential impact limiter geometry modifications to align the MAGNATRAN design with the NAC-STC-CY impact limiter were discussed. NAC stated they are planning to perform physical testing to benchmark the impact limiter analysis.
