Subject: ESTABLISHING MAXIMUM POSSESSION LIMITS FOR NRC LICENSE

License No. 35-27526-01
Docket No. 030-33945

Dear Mr. Stalling:

Your Nuclear Regulatory Commission (NRC) license currently has "open ended" possession limits for the radionuclides that you possess. The NRC no longer writes its licenses in this manner. Please provide the total amount you wish to possess for each radionuclide listed on your license. You may wish to request a possession limit adequate to accommodate the future purchase of additional portable gauges, and/or any sources and/or devices you may have in storage and not currently using.

The table below shows all the sources you are allowed to possess on your current license. Please insert the amount per source and the total amount you wish to possess for each radionuclide listed on the license (A and B):

| Radionuclide | Manufacturer and Model Number | Amount per source | Maximum Possession Limit |
|------------------|--|-------------------|--------------------------|
| A. Cesium-137 | A. AEA Technology/QSA, Inc., Model No. CDCW556; Isotope Product Laboratories Model No. HEG-137 | A. | A. |
| B. Americium-241 | B. AEA Technology/QSA, Inc., Model No. AMNV.997; Isotope Product Laboratories Model Nos. Am1.NO2, 3021 or 3027 | B. | B. |

Please respond to this e-mail by April 27, 2011. If you are unable to respond by this due date, please don't hesitate to contact me and we can discuss an extension to the date. You may respond by e-mail in PDF format. If you have any questions regarding this e-mail, please call me at 817-276-6596. When responding to this e-mail, please include the license and docket numbers located at the top of this page.

Thanking you in advance for your cooperation, assistance and prompt response in this matter.

Sincerely,

Lizette Roldán-Otero, Ph.D.
