Dear Mr. Lesar:

This is in reference to the Environmental Impact Statement (EIS) that has been prepared to satisfy the requirements of the National Environmental Policy Act of 1969, as amended, in response to an application submitted to the U.S. Nuclear Regulatory Commission (NRC) by UniStar Nuclear Development, LLC, on behalf of Calvert Cliffs 3 Nuclear Project, LLC and UniStar Nuclear Operating Services, LLC for a combined construction permit and operating license and the Department of the Army (DA) permit application NAB-2007-08123-M05 (Calvert Cliffs 3 Nuclear Project, LLC/Unistar Nuclear Operating Services, LLC), to construct the proposed Calvert Cliffs Nuclear Power Plant Unit 3 in the Chesapeake Bay and unnamed tributaries to the Chesapeake Bay, forested nontidal wetlands, Johns Creek and Goldstein Branch and their unnamed tributaries at Unistar's Calvert Cliffs site near Lusby, Calvert County, Maryland. The U.S. Army Corps of Engineers Baltimore District (Corps) participated with the NRC as a cooperating agency in preparing this EIS.

We have reviewed the draft final EIS and worked with your staff to revise the document as necessary to confirm that the information presented in the EIS is adequate to fulfill the requirements of Corps regulations and the Clean Water Act Section 404(b)(1) Guidelines to construct the preferred alternative identified in the EIS. We concur with the EIS with no further comments.

The Corps will continue to cooperate with the NRC to complete coordination efforts to meet the requirements of the Clean Air Act and the General Conformity Rule.

A copy of this letter will be furnished to the Maryland Department of the Environment. If you have any questions concerning this letter, please call Mr. Woody Francis, of this office, at (410) 962- 5689.

Sincerely,

A handwritten signature in cursive script that reads "Kathy Anderson".
