SUBJECT: SEABROOK STATION, UNIT NO. 1 - WITHDRAWAL OF LICENSE
AMENDMENT REQUEST 10-06 (TAC NO. ME5414)

Dear Mr. Freeman:

By letter dated January 27, 2011 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML110330202), NextEra Energy Seabrook, LLC (NextEra) applied for an amendment to the Seabrook Station, Unit No. 1, Facility Operating License No. NPF-86. The proposed change would have provided alternate repair criteria for the steam generator (SG) inspection to be performed at your most recent refueling outage. As indicated in the amendment request, this change was only necessary in the event that primary water stress-corrosion cracking (PWSCC) was identified during the inspection of the SGs. By letter dated April 19, 2011 (ADAMS Accession No. ML11112A024), you indicated that no PWSCC was found during the SG inspections and requested to withdraw the amendment request.

The Commission has filed the enclosed Notice of Withdrawal of Application for Amendment to Facility Operating License with the Office of the Federal Register for publication.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Edward Miller".
