Dear Mr. Distefano:

This refers to your license amendment request dated April 20, 2011. Enclosed with this letter is the amended license. **Please note that the amended license is written in accordance with current NRC policy and includes a few changes to the conditions of the license. Specifically: (1) Condition 11 is revised and you are now required to maintain records of individuals designated as users for at least three years following the last use of licensed material by the individual, and (2) Condition 18 that appears in prior amendments to your license is removed because it is not applicable to the gauges authorized on your license.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).
