**Subject:** Levy Nuclear- Transmission Line Habitat Surveys

Doug- I received a copy of the March 17 notice of the figures for the habitat surveys for the Levy Nuclear Plant Transmission Lines. We did not receive a copy of the CD that contains the survey figures and locations. As you are aware, we have conditions of certification requiring surveys along the transmission corridors. I am aware that some of our field staff have been in contact with some of the contractors. However, I would like to make sure that state survey protocols are followed too. Are Heath Rauschenburger or Linda Smith the USFWS contacts that were coordinated with for the survey information?

Would you please also add me to the "CC" list for future communication, in addition to our Regional Director, Roland Garcia who is on the list. Thanks for your assistance.
