Gentlemen:

We have received a copy of your letter dated February 10, 1984, which transmitted a report summarizing the available reactor vessel materials data for pressurized thermal shock concerns for the Turkey Point Plant Unit Nos. 3 and 4 to the Office of Nuclear Reactor Regulation (ONRR) for review. Fees pursuant to 10 CFR 170.22 were not remitted with your request.

Based on information provided by the ONRR staff as the result of their preliminary review of your request, it has been determined that a Class III fee (\$4,000) and a Class I fee (\$400) are appropriate since the review will involve consideration of a single technical issue and a duplicate unit. Therefore, you are requested to remit the sum of \$4,400 to this office. If the ONRR staff's final review of your request reveals that these fees are not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
