On April 28, 2011, an open house public meeting was held at the Clinton Elks Lodge, Clinton, Illinois, between the U.S. Nuclear Regulatory Commission (NRC) and the Clinton Power Station management and staff. The purpose of the open house meeting was to provide an opportunity for the public to discuss NRC activities, nuclear power issues, and Clinton Power Station performance for the period of January 1, 2010, through December 31, 2010. The NRC letter and meeting notice for this open house can be found in the Agencywide Documents Access and Management System (ADAMS) as ML110960579 and ML110960568 respectively. A list of the Open House attendees who signed the attendance sheet is listed below.

The open house discussed an overview of the NRC's Mission and Strategic Goals, the Reactor Oversight Process (ROP), and national ROP results. The NRC discussed other agency regulatory activities such as nuclear security and safeguards, the license renewal process, spent nuclear fuel and independent spent fuel storage installations, radiation safety, new nuclear power plant construction, and licensing activities.

The NRC also provided discussions related to the NRC's assessment of the Clinton Power Station performance, which was documented in the March 4, 2010, End-of-Cycle Assessment Letter (reference ADAMS Accession number ML110620466). As part of this open house, both Exelon and IEMA were available to address questions and concerns. Slides used to describe

the NRC's ROP process and Clinton Power Station 2010 performance can be found in ADAMS under ML111190521. Throughout the open house, members of the public were given the opportunity to ask questions of IEMA officials, Exelon officials, and NRC officials.
