May 6, 2011

Docket No. 03016078
Control No. 574959

License No. 44-19107-01

Glenn Cordner
Chief Executive Officer
Springfield Hospital
25 Ridgewood Road
Springfield, VT 05156

SUBJECT: SPRINGFIELD HOSPITAL, REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR RENEWAL OF LICENSE, CONTROL NO.
574959

Dear Mr. Cordner:

This is in reference to your application dated April 21, 2011 requesting to renew Nuclear Regulatory Commission License No. 44-19107-01.

In your application you committed to establishing and implementing many of the Model Procedures published in NRC Regulatory Guide 10.8, Revision 2, "Guide for the Preparation of Applications for Medical Use Programs." This guide was published in August 1987 and was designed for use with the NRC's medical regulations that existed in 10 CFR Part 35 at that time. On April 24, 2002, NRC published new medical regulations in 10 CFR Part 35. These regulations became effective on October 24, 2002. Concurrent with the issuance of the new medical regulations, NRC published NUREG-1556, Volume 9, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Medical Use Licenses". As specified in NUREG-1556, Volume 9, Regulatory Guide 10.8, Revision 2 is superseded and should no longer be used.

Please use NUREG-1556, Volume 9, Rev. 2 in preparing your license renewal application. This document is available on the NRC's website at <http://www.nrc.gov/reading-rm/doc-collections/nureqs/staff/sr1556/v9/r2/>. You will note that new Part 35 and this guidance generally do not require the submission of detailed procedures during the licensing process. As detailed in NUREG-1556, Vol. 9, Rev. 2 in many cases a licensee is required only to supply a statement regarding the development, implementation, and maintenance of written operating and emergency procedures. Appendix C of NUREG-1556, Volume 9, Rev. 2 should be helpful in identifying the information required by NRC to process your request for license renewal.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

G. Cordner
