**Subject:** Calvert RAI 271 (eRAI 5166) Fitness for Duty

UniStar requested clarification on Calvert RAI 271 (eRAI 5166), which questioned why the applicant is proposing license conditions for FFD when Part 26 provides explicit implementation requirements. This RAI was developed by NSIR Integrated Security Coordination and Policy Branch. The branch is working to have the Operations Programs Table consistent across all FSARs. In the case of Levy there was a commitment made in an RAI response to have FFD license conditions, but this was superseded by other guidance removing the license condition requirement. Paul Harris of NSIR/DSP/ISCPB and Jim Steckel held a telecon with Rob Poche on this issue, and Rob understood there is no need for these to be license conditions.

No change is needed to RAI 271, and RAI 271 was made final and sent to UniStar shortly after the telecon.

Staff participants in the call were:

- Paul Harris – NSIR Senior Reviewer
- Jim Steckel – Chapter PM
