QUESTIONS for Financial, Policy, & Rulemaking Branch (NRR/DPR/PFPB)

01-13

Follow-up to RAI 263, Question 01-12

On July 13, 2007, UniStar Nuclear Operating Services, LLC (UniStar) and Constellation Generation Group (Constellation) applied for a reference combined license for Calvert Cliffs Unit 3 Nuclear Project. On November 3, 2010, on behalf of UniStar, counsel for Calvert Cliffs Unit 3 Nuclear Project filed a letter with the Atomic Safety and Licensing Board panel indicating that Electricite de France (EDF), a foreign business entity, had acquired Constellation's 50 percent interest in UniStar. On November 4, 2010, Constellation filed a Schedule 13D with the United States Securities and Exchange Commission confirming that this transaction between Constellation and EDF had been completed on November 3, 2010.

Prior to this transaction the U.S. Nuclear Regulatory Commission (NRC) issued request for additional information (RAI) 263, Question 01-12 (ML102640034) that requested, among other items, clarifying information on foreign ownership, control and domination. Given the information discussed above, the staff intends to request the following information:

In view of the fact that EDF is a foreign entity and apparently now possesses 100% ownership of UniStar, please justify how UniStar complies with the requirements of 10 CFR § 50.38, "Ineligibility of Certain Applicants."
