Rob,

Attached is DRAFT RAI No. 278 (eRAI No. 5243). You have until December 10, 2010, to review this RAI and decide whether you need a conference call to discuss/clarify the question(s) in this RAI before the final issuance of the RAI. After the clarification phone call or on December 10, 2010, the RAI will be finalized and sent to you for a response. You will then have 30 days to provide a technically complete response or an expected response date for the RAI.

Thank you,

Jim Steckel

Docket No. 52-016

SRP Section: 12.01 - Assuring that Occupational Radiation Exposures Are As Low as is Reasonably Achievable

Application Section: Section 12.01, Assuring that Occupational Radiation Exposures Are As Low as is Reasonably Achievable

QUESTIONS for Health Physics Branch (CHPB)

12.01-6

This is a follow-up RAI to RAI 89 Question 12.01-2

In response to RAI 89, Question 12.01-2 the applicant stated that they would revise Section 12.1 of the FSAR to reference NEI template NEI 07-03. However, the applicant's mark-up provided in response to RAI 89 referenced revision 7 of this template because, at the time, the final version of the template had not yet been published. As the NRC approved version of the template has now been published, please update all internal citations to list the approved NEI template NEI 07-03A, revision 0, in applicable FSAR subsections and references.
