2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

APR 03 2011

David Petrella, M.D.
Radiation Safety Officer
Mid-Michigan Radiology Associates, P.C.
211 S. Crapo Road
Suite F
Mt. Pleasant, MI 48858

Dear Dr. Petrella:

Due to a change in NRC licensing policy, total possession limits for all regulated materials need to be listed on NRC licenses. As I discussed by telephone on March 24, 2011, with John Hoyle and based on the information he provided, we have listed the total possession limit for iodine-131 on your license. If in the future your needs change and you require additional regulated material, you will need to request an amendment to your NRC license. Mr. Hoyle and I also discussed the necessity for a Suite No. in License Condition No. 10.A. and Mr. Hoyle stated that there was no need for a Suite No. to be listed. Therefore, the Suite No. was removed from License Condition No. 10.A.

Enclosed is a corrected copy to your NRC license as a result of this change in licensing policy. Please carefully review these changes.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (623) 214-5213 if you have any questions.

Sincerely,

James R. Mullauer/M.H.S.
Materials Licensing Branch
