**Subject: Acceptance Version of Global Nuclear Fuel (GNF) Topical Report (TR)
NEDC-32851P, Revision 5, “GEXL14 Correlation for GE14 Fuel”
(TAC NO. ME0314)**

In accordance with Reference 1, this letter transmits the acceptance version of the GNF Topical Report (TR) “GEXL14 Correlation for GE14 Fuel,” NEDC-32851P-A, Revision 5.

Because there were some errors identified in the acceptance version of NEDC-32851P-A, Revision 4 (Reference 2), which required subsequent NRC review and approval, the acceptance version of the GNF Topical Report (TR) “GEXL14 Correlation for GE14 Fuel,” NEDC-32851P-A, Revision 5 includes the Safety Evaluation (SE) for the corrected pages (Reference 1) as well as the SE included in NEDC-32851P-A, Revision 4 (Reference 2).

Please note that Enclosure 1 contains proprietary information of the type that GNF maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GNF-A as indicated in its affidavit, also included in the report. The affidavit contained in Enclosure 3 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GNF-A. GNF-A hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

Enclosure 1 is the proprietary version of GEXL14 Correlation TR and Enclosure 2 is a non-proprietary version. Enclosure 3 contains the affidavit.

If you have any questions about the information provided here, please contact me at (910) 819-5954 or Jim Harrison at (910) 819-6604.

Sincerely,

Andrew A. Lingenfelter
Vice President, Fuel Engineering
Global Nuclear Fuel–Americas, LLC
