MEMORANDUM TO: Michael Junge, Chief  
Operator Licensing and Human Performance Branch  
Division of Construction, Inspection  
& Operational Programs  
Office of New Reactors

FROM: Richard Pelton */RA/*  
Operator Licensing and Human Performance Branch  
Division of Construction, Inspection  
& Operational Programs  
Office of New Reactors

SUBJECT: SUMMARY OF MAY 4, 2011, MEETING WITH THE INDUSTRY  
FOCUS GROUP ON NEW REACTOR OPERATOR LICENSING

On May 4, 2011, the U.S. Nuclear Regulatory Commission (NRC) staff held a public meeting with the Industry Focus Group on New Reactor Operator Licensing to discuss potential changes to the licensed operator examination process. Enclosure 1 lists the attendees at the meeting. Enclosure 2 is the meeting agenda. This meeting was the latest in a series intended to promote efficient, effective, and consistent preparation and administration of new reactor operator licensing examinations.

The purpose of this meeting was to deliver NRC questions and comments (ML11129A070) on the draft AP1000 knowledge and abilities (K & A) catalog (ML110100263) to the AP1000 Owner's Group training committee (APOG). NRC comments were delivered to the APOG. The APOG agreed to review the questions and comments and discuss their resolution at a future public meeting of the Industry Focus Group on New Reactor Operator Licensing.

No final positions were taken during the meeting. The next meeting with the Industry Focus Group on New Reactor Operator Licensing has not been scheduled.

Enclosures: As stated
