These RAIs were issued on October 21, 10. Applicant is supposed to provide a response to the RAI or a schedule for the response in 30 days. They have provided a schedule in this 30 day letter and met that requirement. You have to assess if this causes a schedule slip for 14.3 review completion. Currently, the schedule shows your input (SER w/OI) to projects by 7/29/11. I believe, there is plenty of slack to absorb this delay. Agree?

Thanks.

Does this represent the applicant's slip in the schedule? If so, by how much time?
