Documents Title in ADAMS)

I asked Mr. Galdenzi if he had other areas that had been decommissioned before 2008 and if the surveys for all of the decommissioned areas would have an appropriate survey to allow release of the area if the license was terminated without additional sampling. He said that there were other areas listed in a decommissioning file. He said that the areas had been surveyed such that they would not need additional surveys with the exception of one lab. They were having that lab resurveyed. I noted that the letter of credit number had changed in 2009, but the standby trust agreement schedule C had not changed. He said that he would get the schedule C amended to reflect the new letter of credit number.
