Subject: RE: RPT vs. RST vs. HPT, Feb 4 request

I see you point Ron, we have historically used the term Radiation Safety Technician (RST) but it is considered one and the same as a Health Physic Technician. The RPT must have been some combination of the two and should not be carried forward in any of the documents. The simple point is we would like to have Mr. Gibbs be recognized based on his qualifications as a Health Physic Technician as outlined in Regulation Guide 8.31 Section 2.4.2 (1). Sorry for the confusion I hope this helps.

Subject: RPT vs. RST vs. HPT, Feb 4 request

Jon:
In your Feb 4 request for Mr. Gibbs, you use the term Radiation Protection Technician (RPT) several times in the cover letter. In Enclosure 1, you use the term "Qualifications of Mr. Gibbs as Radiation Safety Technician". Is this RPT a Uranium One position that is equivalent to RST or Health Physic Technician (HPT) as in RG 8.31? I'm a bit confused about the request. Can you give me a bit of clarification, or maybe I just missed something.

Thx
Ron
