LISLE, ILLINOIS 60532-4352

APR 03 2011

John D. Mellen, M.D.
Radiation Safety Officer
Doctors Diagnostic Center
2405 East 14 Mile
Sterling Heights, MI 48310

Dear Dr. Mellen:

Due to a change in NRC licensing policy, total possession limits for all regulated materials need to be listed on all NRC licenses. We found that your NRC license did not contain a possession limit for iodine-131 authorized under 10 CFR 35.300. We have found that 1 curie of iodine-131 is adequate for most programs your size so we added a possession limit of 1 curie of iodine-131 on your NRC license under 10 CFR 35.300. If in the future your needs change and you require additional material under 35.300, you will need to request an amendment to your NRC license.

Enclosed is a corrected copy to your NRC license as a result of this change in licensing policy. Please carefully review these changes.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (623) 214-5213 if you have any questions.

Sincerely,

James R. Mullauer, M.H.S.
Materials Licensing Branch
Region III

License No. 21-26766-01
Docket No. 030-34275

Enclosure: Corrected copy of Amendment No. 04
