Subject Closure information for NMED 080278

History:

 This message has been replied to.

This NMED Record was left open pending the completion of enforcement action by Region I. I see that you have accessed the appropriate records regarding the conclusion of the case. A review of the record determines that there are, apparently, no errors and that it contains the licensee's stated corrective and preventive actions. This record may now be closed unless you have further requests for information.
