**Cc:** Strout, Steven; Cook, Christopher; Munson, Clifford; Stieve, Alice; Devlin, Stephanie; Seber, Dogan; Colaccino, Joseph; Steckel, James; CCNPP3COL Resource  
**Subject:** FW: Call attendees for the Clarification Call for Draft RAI 284 - January 20, 2011

The NRC Participants in the phone call were:

- Alice Stieve – Technical Reviewer
- Stephanie Devlin - Technical Reviewer
- Dogan Seber – Technical Reviewer
- Clifford Munson – RGS1 Branch Chief (Acting)
- Christopher Cook – RGS2 Branch Chief
- James Steckel – Project Manager for SE Chapter 2

The clarification call was requested by UniStar. Draft RAI 284 requests a hazard analysis of the potential impact the New Madrid Seismic Zone (NMSZ) may have on the CCNPP seismic hazard curves. At the beginning of the call NRC staff clarified that their responses during the call would be non-technical in nature. UniStar representatives were able to modify their questions to meet that limitation.

In the end it was understood that a quantitative analysis from UniStar is necessary for the staff to confirm the significance of any NMSZ influence. UniStar representatives agreed, and at the conclusion of the call UniStar stated that no change was needed to the RAI, and the RAI could be sent as final.
