**Subject:** Calvert Section 6.4 update

John:

Surinder and I tried to catch you in person, as we have an update on the Calvert CO2 issue from Unistar. Last Friday, Calvert notified us that they had discovered an error in their application based on the presence of CO2 sources on the Unit 1 and 2 sites.

Unistar said they will submit a preliminary evaluation by letter today, and a confirmatory evaluation by Friday. Based on this information, we are recommending removal of Calvert Chapter 6 from the upcoming ACRS meeting on April 5, and holding the SE for Calvert Chapter 6 until we can evaluate the impact of this issue and make any necessary changes.

Thanks,

Jason
