

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION IV
612 EAST LAMAR BLVD, SUITE 400
ARLINGTON, TEXAS 76011-4125

May 12, 2011

Joni Gray, Chair
Board of Supervisors
County Administration Building
105 East Anapamu Street
Santa Barbara, CA 93101

Dear Ms. Gray:

This is in response to your April 12, 2011, letter in which you requested a presentation by the NRC to the Santa Barbara County Board of Supervisors. The purpose of the presentation would be to explain the seismic risks known to the Diablo Canyon Power Plant and the design of the facility. You also asked that the NRC describe the facility's capability to address the types of problems experienced at the Fukushima Power Plant.

We can accommodate your request during the week of June 13, 2011. The NRC's primary responsibility is to ensure the adequate protection of the public health and safety of the American people. Toward that end, we have been very closely monitoring the activities in Japan and reviewing all currently available information. Review of this information, combined with our ongoing inspection and licensing oversight, give us confidence that all U.S. plants continue to operate safely. I look forward to meeting with you and the other board members.

Sincerely,

/RA/

Anton Vogel, Director
Division of Reactor Safety

bcc:

- J. Weil, Congressional Affairs Specialist
- W. Mair, Regional State Liaison Officer
