May 16, 2011

Docket No. 03022181
Control No. 575095

License No. 06-20980-01

David P. Aiudi
President/Radiation Safety Officer
Independent Materials Testing Laboratories, Inc.
57 N. Washington Street
P. O. Box 745
Plainville, CT 06062

SUBJECT: INDEPENDENT MATERIALS TESTING LABORATORIES, INC., LICENSE
AMENDMENT, CONTROL NO. 575095

Dear Mr. Aiudi:

This refers to your NRC license listed above. The latest amendment to your license (Amendment No. 05) does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and Item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information that you provided to me during our telephone conversation of May 10, 2011. Additionally, Conditions 13 and 19 that appear in the previous amendment to your license are removed from the amended license because they are either no longer applicable or do not apply to the types of gauges authorized on the license. Also, Conditions 11 and 15 are the revised versions of Conditions 11 and 16, respectively of the previous amendment. Enclosed with this letter is the amended license.

You must request and receive an amendment to your license prior to acquiring licensed material in excess of the limits specified in Item 8 of the license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

D. Aiudi
