RE: **Supplemental EIS to NUREG-1917 – North Anna Power Station Unit 3 COL**  
Caroline County, VA  
DHR File No. 2000-1210

We have received from the Nuclear Regulatory Commission (NRC) notice of the intended action referenced above and a request to reinstate consultation pursuant Section 106 of the National Historic Preservation Act. Thank you for notifying our office of this change in the scope of the project.

It is unlikely that a change in reactor technology will significantly alter the Area of Potential Effects for this project. As such, we do not anticipate a need to revise our previous recommendation of no adverse effect. However, please forward to our office for comment the draft supplement when available along with NRC's amended APE and recommendation of effect, if applicable.

Thank you again for reinitiating consultation with our office. If you have any questions at this time, please do not hesitate to contact me at [roger.kirchen@dhr.virginia.gov](mailto:roger.kirchen@dhr.virginia.gov).

Sincerely,

Roger W. Kirchen, Archaeologist
