For Protection Of The Environment

71 PINE AVENUE

OSSINING, NEW YORK 10562

914 - 762 - 1362

October 22, 1976

Mr. Marcus Rowden, Chairman
Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Rowden,

It is shocking news that another Nuclear Regulatory Commission reactor engineer has resigned because of safety problems. It is even more shocking to us who live in the Hudson Valley that the problems are evident at the Indian Point #2 and #3 plants.

For years our small group of citizens has carried the burden of helping protect the public health and safety. Like your engineer, Ronald Fluegge, we don't think you listen very well to documented evidence of danger.

Our only recourse is to ask that you act immediately to close Indian Point #2 and #3. Surely you can do no less in good conscience as head of an agency commissioned to protect us.

Sincerely,

Irene P. Dickinson
