 10B. DATED (SEE ITEM 13) 09-29-2009

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers is extended, is not extended.
 Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:
 (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
 Obligate: N/A

TEMPLATE - ADM001

SUNSI REVIEW COMPLETE

MAY 18 2011 ADM002

The purpose of this contract modification is to revise the statement of work to eliminate the course exam requirements.

Accordingly, the contract is hereby modified as follows:

1) B.8 Statement of Work, dated September 28, 2009, is hereby deleted in its entirety and replaced with the revised Statement of Work, dated April 12, 2011, which is attached hereto.

All other terms and conditions of this contract remain unchanged.

A summary of obligations, from award date through the date of this action, is given below:

Total FY09 Obligations	\$58,505.00
Total FY10 Obligations	\$32,739.00
Total FY11 Obligations	\$57,830.00
Total NRC Obligations	\$149,074.00

B.8 STATEMENT OF WORK

I. BACKGROUND

The Nuclear Regulatory Commission (NRC) inspects licensed nuclear facilities and their construction and operations (licensed activities) as part of its public health and safety mission. The purpose of these inspections is to verify licensed activities are conducted safely and in accordance with federal regulations.

In support of this mission, the NRC's Office of Human Resources conducts a program of training designed to give NRC staff technical information and hands-on experience with motor operated valves.

II. CONTRACT OBJECTIVE

The Contractor shall provide the personnel, facilities, instructional materials, and services necessary to; 1) prepare and teach the "Motor Operated Valves Course" course and; 2) provide specialized technical training in the field of motor operated valves.

III. SCOPE OF WORK

The contractor shall update/revise the course materials and present the training course entitled, "Motor Operated Valves Course." This course shall provide NRC inspectors and other technical personnel with information and hands-on experience covering the operation, maintenance, and testing of motorized valve actuators. Primary emphasis shall be placed on motorized valve actuator types most commonly used at Nuclear Power Plants. This course shall improve the NRC inspectors' ability to conduct in-depth inspections and design reviews to determine whether applicable codes and standards are met.

Periodically, unique, or one-time training needs may arise. In order to respond to these needs, the contractor shall also provide specialized training in the area of motor operated valves. In some cases, these needs may necessitate training to commence with relatively short advance notice (30 to 60 days).

A. Task 1 – Course Material Update/Revision

A.1. Requirement:

The contractor shall update/revise the course entitled, "Motor Operated Valves Course" to include, at a minimum the main and subtopics topics listed below. Course objectives shall be accomplished through a combination of lectures, discussions, films, demonstrations, and field exercises providing hands-on experience in the various aspects of motor operated valves. Changes in, additions to, or deviations from the topics listed are permitted, but the content of the final outline shall be approved by the NRC Project Officer.

i. Lectures: The classroom portion of the course shall encompass at least the following topics and subtopics:

Main Topic	Subtopics
1) Theory of operation of Motor Operated Valves	1a) Motorized valve actuator types with emphasis on those most commonly used in Nuclear Power Plant applications. 1b) Application of various motorized valve actuator types.

	<p>1c) Theory of lubrication of motorized valve actuators, including principles and techniques used in selecting the appropriate lubricant for a given application.</p>
2) Theory of Motorized Valve Actuator Controls	2a) Design and principle of operation of standard motorized valve actuator control circuits.
3) Valve actuator Testing	<p>3a) Methods of measuring the operational performance of motorized valve actuators.</p> <p>3b) Hands on applications of performance testing.</p>
4) Preventative Maintenance	<p>4a) Techniques of troubleshooting motor operated valves/actuators including both mechanical and electrical interfaces.</p> <p>4b) Hands on application of valve actuator assembly/disassembly and torque and limit switch settings.</p>
5) Regulatory requirements and industry experience	<p>5a) ASME Codes, ISTC, OMN-1, OMN-11, JOG</p> <p>5b) Case histories of MOV problems and failures.</p> <p>5c) IE Bulletin 85-03, Motor-Operated Valve Common Mode Failures During Plant Transients Due to Improper Switch Settings.</p> <p>5d) Generic Letter 89-10, Safety-Related Motor-Operated Valve Testing and Surveillance.</p> <p>5e) Generic Letter 95-07, Pressure Locking and Thermal Binding of Safety- Related Power-Operated Gate Valves.</p> <p>5f) Generic Letter 96-05, Periodic Verification of Design-Basis Capability of Safety-Related Power-Operated Valves.</p> <p>5g) Information Notice 89-61, Failure of Borg-Warner Gate Valves to Close Against Differential Pressure.</p> <p>5h) Information Notice 90-40, Results of NRC-Sponsored Testing of Motor-Operated Valves.</p> <p>5i) Information Notice 93-42, Failure of Anti-Rotation Keys in Motor-Operated Valves Manufactured by Velan.</p> <p>5j) Information Notice 93-98, Motor Brakes on Valve Actuator Motors.</p>

	<p>5k) Information Notice 93-98, Motor Brakes on Valve Actuator Motors.</p> <p>5l) Information Notice 94-49, Failure of Torque Switch Roll Pins.</p> <p>5m) Information Notice 96-48, Motor-Operated Valve Performance Issues.</p> <p>5n) Information Notice 97-07, Problems Identified During Generic Letter 89-10 Closeout Inspections.</p> <p>5o) RIS 2001-15, Performance of DC-Powered Motor-Operated Valve Actuators.</p> <p>5p) IN 2005-23, Vibration-Induced Degradation of Butterfly Valves.</p> <p>5q) IN 2006-03, Motor Starter Failures Due to Mechanical-Interlock Binding.</p> <p>5r) IN 2006-26, Failure of Magnesium Rotors in Motor-operated Valve Actuators.</p> <p>5s) IN 2006-29, Potential Common Cause Failure of Motor-operated Valves as a Result of Stem nut Wear.</p> <p>5t) Other recent industry operating experience and NRC Generic Communication as appropriate.</p>
--	---

ii. Demonstrations/Field Exercises: The course shall include demonstrations and field exercises which shall be designed to allow each student to gain hands-on experience in the various aspects of motorized valve actuators.

iii. Course Duration: The course shall be approximately thirty-two (32) hours in duration (four days @ 7 hours per day, with the last day consisting of 4 hours).

iv. Course Materials: The contractor shall provide course materials (the student and instructor manuals) to the current industry standards, and shall be utilized for the period of the contract, including optional periods. During the contract period, in the event of new regulatory requirements or significant changes to industry standards, the contractor shall update the course materials.

The contractor shall provide the following items:

1) Student Manual

a) The contractor shall prepare a student manual for use during the presentation of the course material. The student manual shall include printed copies of view graphs, slides and other visual aids

required to present the course. The Student Manual shall be placed in a format consistent with the NRC Technical Training Center Style Guide (Attachment 1) or other NRC Project Officer approved format.

b) Lesson objectives shall be included at the beginning of each section or chapter.

c) The student manual shall also include a Table of Contents, a glossary of common terms and copies of relevant reference material. Short references (approximately six pages or less) shall be included in the manual while lengthy references shall be listed in a bibliography which provides the student with sufficient information to determine what issues the reference covers and where a copy may be obtained.

2) Instructor Manual

The contractor shall provide an instructor manual to supplement the student manual. The instructor manual shall be prepared in sufficient detail to allow a qualified individual who has not previously conducted the course to present the material in an organized fashion. The instructor manual shall include, as a minimum:

a) Detailed course outline;

b) Clearly defined learning objectives for each topic;

c) Copies or detailed descriptions for visual aids;

d) Detailed lesson plans indicating the manner in which the student material will be presented by the instructor. The lesson plans shall include appropriate references to visual aids and other materials required during the presentation and indicate when each is to be used during the presentation; or, a Microsoft Power Point presentation may be used as a substitute if adequate instructor information is provided in the notes section.

e) Detailed references to course references, codes, and standards.

v. Visual Aids

The contractor shall develop or provide visual aids to assist students in understanding the course material. The contractor shall use these visual aids to supplement the presentation of the course material. Any visual aid which the contractor deems necessary for the presentation of this course must be provided to the NRC Project Officer as an integral part of the training package. A hard copy of each visual aid used during the course should be included in the student manual as a figure plate at the end of the applicable chapter.

vi. Software Program

All manuals, both instructor and student, and written examinations shall be prepared in Microsoft Word 2003, the NRC word processing software program. Any graphics presentations used in the course will be developed in Microsoft Word 2003 or Microsoft PowerPoint format.

A.2. Standard:

All requirements listed in A.1 must be fulfilled.

A.3. Deliverables

i) Course Materials

1) Draft Outlines- within thirty (30) days after the initial meeting, or within thirty (30) days after receipt of written cancellation of that meeting, provide a draft instructor manual outline and a draft student manual outline to the Project Officer/Contracting Officer. The NRC Project Officer will provide his review of the material within ten (10) days after receipt from the contractor. The contractor shall correct any deficiencies and resubmit the material within ten (10) days after receipt of the NRC Project Officer comments.

2) Draft Materials - within sixty (60) days after acceptance of the draft instructor manual outline and the student manual outline, provide two (2) draft copies of the instructor manual, student manual, exam questions, draft problems for use during workshops, and visual aids. The contractor shall carefully proof all materials submitted. The NRC Project Officer will provide his review of the material within twenty (20) days after receipt from the contractor. The contractor shall correct any deficiencies and resubmit the material within ten (10) days after receipt of the NRC Project Officer comments.

3) Final Copies - within sixty (60) days after acceptance of the draft materials, submit three (3) copies of final course materials listed below. One copy of computer data storage (e.g., disks, cds, dvds, etc.) containing all materials in the required formats shall be forwarded to the NRC Project Officer.

- Student Manual
- Instructor Manual
- Examination Questions and Answers
- Problem Sets/Workshops and Answers
- Study Questions and Answers
- Visual Aids (Slides, View-graphs, Videos, or Other)

A.4. Quality Assurance Plan

100% Inspection: The NRC Project Officer will review all deliverables and provide comments on Contractor submitted draft documents. The Contractor shall incorporate all NRC comments into the final deliverables. All final deliverables will be reviewed and approved by the NRC Project Officer.

A.5. Incentives

A 0.05% deduction will be taken off the total contract line item amount (CLIN) for Task 1 for each business day late for each deliverable. A 0.05% deduction will be taken off the total CLIN for Task 1 for each NRC comment not incorporated into the Contractor's final deliverable submissions.

A.6. Meetings and Travel

Within thirty (30) days after contract award a meeting will be held at the contractor's facility to discuss the course outline, lesson objectives, material preparation, and classroom and laboratory facilities. This meeting may be

canceled or rescheduled based upon mutual agreement of the NRC Project Officer and the contractor.

A.7. NRC Furnished Materials

Upon request, the NRC will furnish the contractor with at least one copy of applicable NRC documents deemed necessary to support course development and presentation, such as Regulatory Guides, Information Notices, Bulletins and NUREGs, and current version of the student and instructor's manuals for the course. If these documents are available on the NRC website, the contractor may be provided with the URL and directed to download the appropriate information.

A.8. Additional Information/Guidance

All course and reference materials as well as training aids prepared or created by the contractor or obtained for the NRC for use in the presentation of this course will become the property of the NRC upon completion of this contract.

Résumés shall also be provided for those individuals preparing the student and instructor manuals.

B. Task 2 – Instruct/Present "Motor Operated Valves" Course

B.1. Requirement

The contractor shall instruct/present the course entitled, "Motor Operated Valves" in accordance with the requirements of Task 1 of this Performance Work Statement.

i. Instructors:

Instructors shall have at least two years experience in the field of Motor Operated Valve Actuators. Course instructors must have expertise in the operation, maintenance, and testing of motor operated valve actuators most commonly used at commercial nuclear facilities.

Course instructors shall have at least two years of expertise in course instruction, with at least one year of experience in providing instruction to, and supervising the activities of, individuals who have little or no experience in the operation or testing of motor operated valves, or industrial safety, to ensure applicable Federal and State safety requirements are met in this course.

For each course, the contractor shall propose at least two (one primary and one back-up) instructors at least thirty (30) days prior to the scheduled course delivery. For each proposed instructor, a résumé shall be submitted to the NRC Project Officer for approval.

ii. Training Materials:

The contractor shall provide each student with: a student manual which shall include learning objectives for each section, a copy of relevant industry standards and NRC Regulatory Guides, Generic Communications, and policy documents relevant to the subject matter; a copy of relevant view-graphs used during the course presentation and not already provided in the student manual; applicable case histories; and all handouts, (i.e., material not included in the student

manual). The use of handouts shall be kept to a minimum and shall represent material that could not have been incorporated in the student manual prior to the start of the course.

iii. Place of Performance

The course will be held at the contractor's facility and the facility will be equipped with the necessary equipment to support this training. The NRC reserves the right to visit the offeror's training facility prior to a contract award.

iv. Class Size

Class size shall be approximately fifteen (15) students and two (2) optional observers (the Project Officer and/or an individual designated by the Project Officer). Observers will be provided with a copy of the student training materials. These two optional observer positions may be used as regular student positions if the observers designated by the Project Officer do not attend.

v. Class Hours

Class hours shall start at 8:00 a.m. and end about 4:00 p.m. each day, allowing sixty minutes for a lunch break, with approximately seven hours of instruction time available per day. Breaks shall be provided at a frequency of approximately ten (10) minutes following each 50 minutes of instruction. The first class shall begin at 8:00 a.m. on the first scheduled class day, and end at 12:00 p.m. on the last scheduled class day.

vi. Other materials to be provided to the NRC Project Officer/students by the contractor include:

- a) Shipping boxes and shipping expenses for shipping student manuals via the USPS at the book-rate to the student mailing addresses following completion of the course.
- b) A map of the course locality clearly showing the training facility and nearby lodging available to the students. This shall be provided to the NRC Project Officer sixty (60) days prior to the course.

vii. Software Program

All manuals, both instructor and student, and written examinations shall be prepared in Microsoft Word 2003, the NRC word processing software program. Any graphics presentations used in the course will be developed in Microsoft PowerPoint format.

B.2. Standard:

All requirements listed B.1 must be fulfilled for each course.

B.3. Deliverables

i) Pre-Course Submission

Sixty (60) days prior to the start of each course, the contractor shall provide the Project Officer a copy of the following material:

- Course schedule (if different from those provided for previous courses),
- Texts and handouts to be provided to the students (if different from those provided for previous courses),

The Project Officer will provide a review of the material within ten (10) days after receipt from the contractor. The contractor shall correct any deficiencies and resubmit the material within twenty-one (21) days from receipt. NRC approval of the material shall be required at least one (1) week prior to the start of each course.

ii) Post-Course Submission

Within thirty (30) days of completion of a course presentation, the contractor shall submit a Course Presentation Report to the NRC Project Officer. The report shall contain:

- 1) A cover letter discussing accomplishments, problems, and recommendations for improvement. The recommendations shall consider the student evaluations.
- 2) Student information sheets providing the student's name, business address, business phone number, name of immediate supervisor, date of the course.

B.4. Quality Assurance Plan

100% inspection: The NRC Project officer shall review the Contractor's Pre-Course Material Submission and ensure that all materials submitted meet all requirements. The NRC Project Officer and/or designee may attend the course for observation. The NRC Project Officer will also review the Course Presentation Report, including the student evaluations.

B.5. Incentives

A 0.05% deduction in total CLIN amount will be taken for each business day late for each deliverable submission.

B.6. Meetings and Travel

Course will be held at Contractor's facility. The Contractor shall provide transportation for all students between the training site and any field exercises or demonstrations.

B.7. NRC Furnished Materials

The NRC will furnish one copy of a student information sheet and a course evaluation form. The student information sheet and course evaluation forms shall be provided to each student at the start of each course.

B.8. Additional Information/Guidance

i) The NRC will order at least one course during the period of this contract. Additional courses may be ordered if warranted by student demand. It is anticipated that two courses per year will be necessary to meet the NRC's training requirement. Exact course dates will be arranged with the contractor at least sixty (60) days before each course. Courses will be formally scheduled via a delivery order form signed by both parties. (See Attachment 2 for sample delivery order.)

ii) The NRC Technical Training Center, Chattanooga, TN and the NRC Project Officer will coordinate student attendance.

- iii) Should the NRC determine no later than thirty (30) calendar days prior to the start of a course that the need is insufficient to conduct the training; the NRC may reschedule or cancel the course presentation by written notification to the contractor without obligation to the government.
- iv) The NRC reserves the right to supplement course presentations with NRC technical experts, if available. The Project Officer will notify the contractor in advance of the course presentation if technical experts will be used.
- v) Student background and experience will vary. The contractor should not assume experience in motor operated valves.

C. Task 3 – Final Report

C.1. Requirement

The contractor shall furnish a final report in accordance with NRC Management Directive 11.1. The report shall contain as a minimum the below three requirements:

- i) A technical report of the work completed.
- ii) Any problems or delays encountered and their solutions.
- iii) Recommendations for improvements.

C.2. Standard:

All requirements listed in C.1 must be fulfilled.

C.3. Deliverables

The final report shall be submitted thirty days (30) prior to the end date of the contract. One copy shall be sent to the Project Officer and one copy to the Contracting Officer.

C.4. Quality Assurance Plan

100% inspection: The NRC Project Officer will review the final report and ensure that all three minimum requirements are contained in the report.

C.5. Incentive

A 1% deduction in total CLIN amount of Task 3 will be taken for each business day overdue. A 30% deduction in total CLIN amount will be taken for each missing minimum requirement.

C.6. Additional Information/Guidance

The final report and transfer of all government furnished materials and all contract developed materials shall be completed 30 days prior to the contract expiration date.

D. Optional Specialized Courses (Task Orders)

D. 1. Requirement

The contractor shall develop and present specialized seminars or training courses related to Motor Operated Valves Course during the period of contract performance. The scope of the specialized seminars or training courses may cover one or more of the main topics listed in Section A.1(i) of this SOW. The

Contractor shall instruct/present training to commence with relatively short advance notice (30 to 60 days). When a requirement within this contract's scope of work is identified, the Contracting Officer will send the Contractor a request for proposal (RFP), which identifies the specific work to be performed. The Contractor will provide a technical and cost proposal for the work specified in the RFP. If the technical and cost proposal is acceptable, a task order for presentation of courses or seminars will be issued by the NRC Contracting Officer.

It is anticipated that course development and presentation for any specialized course or seminar will require an estimated level of effort of 400 hours of Professional Labor and 100 hours of Non-Professional Labor for the fixed loaded hourly rate. The rate must include all costs for development and presentation.

D.2. Standard:

To be specified within individual task orders for the specialized seminars and training courses.

D.3. Deliverable:

All deliverables will be specified within the individual task orders for the specialized seminars and training courses.

D.4. Quality Assurance Plan:

100% inspection: The NRC Project Officer will review all deliverables specified in the individual task orders for the specialized seminars and training courses.

D.5. Incentive:

To be specified within individual task orders for the specialized seminars and training courses.

D.6. Additional Information/Guidance

Materials developed for the specialized course shall be submitted to the NRC Project Officer/Contracting Officer for review prior to using in any subsequent course presentations and will meet the same specifications as the initial course materials developed as part of this contract.

IV. PERFORMANCE REQUIREMENTS SUMMARY

Task	Deliverable	Quality Assurance Plan (QAP)	Performance Requirement	Incentive/Deduction
Task 1 – Course Material Update/Revision	Course Materials	100% Inspection: All draft and final deliverables will be reviewed by the NRC Project Officer.	1) 100% timely submission of outline, draft, and final course materials. 2) 100% incorporation of NRC comments on draft materials into final submissions.	1) 0.05% deduction in total CLIN amount for each business day late for submissions. 2) 0.05% deduction in total CLIN amount for each comment not incorporated into final submissions.
Task 2 -	Pre-Course	100% Inspection:	1) 100% timely	1) 0.05% deduction in total

Instruct/Present the "Motor Operated Value" Course	and Post-Course Submissions	NRC Project Officer review of Pre-Course and Post-Course Material Submissions.	submission of Pre-Course and Post-Course Material Submissions	CLIN amount for each business day late for each submission.
Task 3 – Final Report	Final Report	100% Inspection: NRC Project Officer review for minimum requirements.	1) 100% timely submission of Final Report. 2) All three stated minimum requirements contained in report.	1) 1% deduction in total CLIN amount for each business day late on submission. 2) 30% deduction in total CLIN amount for each missing minimum requirement.

V. PERIOD OF PERFORMANCE

The ordering period for this contract shall commence on date of award and will expire one year from date of award. Any orders issued during this period shall be completed within the time specified in the order, unless otherwise specified herein. (See 52.216-18 - Ordering.) The term of this contract may be extended at the option of the Government for an additional four (4) one-year option periods.
