Subject: Supplement to Exelon Cyber Security Plan

  - (4) Letter from Darin M. Benyak to the USNRC Document Control Desk, "Response to Request for Additional Information regarding Exelon Cyber Security Plan," dated March 31, 2011

On November 23, 2009, in accordance with the provisions of 10 CFR 50.4 and 10 CFR 50.90, Exelon Generation Company, LLC (Exelon) submitted a request for an amendment to the Facility Operating Licenses (FOL) for the above listed facilities. This proposed amendment requested U.S. Nuclear Regulatory Commission (NRC) approval of the Exelon Cyber Security Plan, provided an Implementation Schedule for the Exelon Cyber Security Program, and added to the existing FOL Physical Protection license condition to require Exelon to fully implement and maintain in effect all provisions of the Commission-approved Cyber Security Plan. By letter dated July 23, 2010 (Reference 2), Exelon supplemented the Cyber Security Plan License Amendment Request with a revised Cyber Security Plan based on the template contained in NEI 08-09, Revision 6.

By letter to Exelon dated March 4, 2011 (Reference 3), the NRC issued a Request for Additional Information (RAI) regarding the submitted Exelon Cyber Security Plan. The RAI questions dealt with three generic industry issues, including one issue involving cyber security records retention. Exelon responded to the RAIs consistent with the industry guidance (Reference 4); however, one additional sentence was added by Exelon to help clarify the meaning of a superseded record. During a telephone call with Exelon, D. Walker, on May 11, 2011, NRC Project Manager, E. Brown, questioned whether the added sentence could be interpreted too broadly. As a result of this conversation, Exelon is providing a revised response to the previously submitted records retention RAI question as Enclosure 1 which deletes the clarifying sentence.

Enclosure 2 provides a revised Cyber Security Plan that includes the amended text as part of Section 4.13. Exelon requests that Enclosures 1 and 2, which contain security-related information, be withheld from public disclosure in accordance with 10 CFR 2.390.

There is no adverse impact to the submitted No Significant Hazards Consideration Determination. There are no additional Regulatory Commitments contained within this letter.

In accordance with 10 CFR 50.91, a copy of this letter is being provided to the designated State Officials. If you have any questions or require additional information, please contact Mr. Doug Walker at (610) 765-5952.

I declare under penalty of perjury that the foregoing is true and correct. Executed on the 19<sup>th</sup> day of May 2011.

Respectfully,

Michael Jesse  
Director - Licensing and Regulatory Affairs  
Exelon Generation Company, LLC
