To Whom It May Concern,

Please terminate Lawrence Technological University's Nuclear Regulatory Commission license. Lawrence Technological University has disposed of its licensed material and does not plan on acquiring or possessing any licensed or unlicensed radioactive materials requiring Nuclear Regulatory Commission licensing in the future. In addition, Lawrence Tech does not possess any specifically licensed material under your NRC license, only generally licensed gas chromatographs, therefore, a closeout survey and leak test results are not needed.

Sincerely Yours,

Anthony F. Sky, Ph.D.
