Dear Mr. Nagle:

This refers to your license amendment request dated May 11, 2011. Enclosed with this letter is the amended license. **The amended license is written in accordance with current NRC policy and includes significant revisions of the conditions of the license. Specifically: (1) Item 8 is revised that specifies maximum possession limits of the material authorized on the license; (2) Condition 11 is revised that now requires that you maintain records of individuals that are authorized to use license material; and (3) Condition 18 that appears in the previous amendment is removed because it is not applicable to the type of gauges that are authorized on the license.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.
