**Attachments:** 2011.05.16 NDT Conference NRC.pdf

Brian,

My presentation for the NDT conference is attached. NRC contracted Pacific Northwest National Laboratory to evaluate the minimum funding calculation specified in 10 CFR 50.75(c). Their evaluation has not been completed yet. Depending on budgetary restraints, the report may be completed late this year. If a change is made, it will be through rulemaking. At this time, I can't say whether rulemaking will be necessary. However, it takes at least two years to work through the notice-and-comment process for a rulemaking. I hope that gives you an idea of the minimum timing before a change would be made.

Please feel free to contact me if you have further questions.

Sincerely,

Tom F.

**Subject:** NDT conference follow-up

Tom,

I'm sorry that I missed the opportunity to introduce myself at the NDT conference. Since last March, I have been managing the NDT investments for Exelon. I appreciated your presentation at the conference. Since I am new to managing NDT investments, I want to better understand the underlying decommissioning liabilities. Would it be possible if you could send me an electronic copy of your presentation? Also, I wanted to clarify the current NRC review that you discussed. Is the NRC minimum funding calculation under review? If so, what would be the timing of this change?

Thanks,  
Brian
