SUBJECT: NRC APPROVAL OF NAC INTERNATIONAL REQUEST FOR WITHHOLDING  
INFORMATION FROM PUBLIC DISCLOSURE

Dear Mr. Patko:

By letter dated May 18, 2011, you submitted an affidavit dated May 18, 2011, requesting that the information contained in the following documents be withheld from public disclosure pursuant to Title 10 of the Code of Federal Regulations (10 CFR) Part 2, Section 2.390:

- Tregoning, R. L. and R. S. Meiklejohn III, February 2001, "Dynamic Compression Testing of Redwood and Balsa Wood." NSWCCD-61-TR-2000/26, West Bethesda, MD: Naval Surface Warfare Center, Carderock Division

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by competitors of NAC, without license from NAC, constitutes a competitive economic advantage over other companies.
- Information that, if used by a competitor, would reduce their expenditure of resources or improve their competitive position in the design, manufacture, shipment, installation, assurance of quality or licensing of a similar product.
- Information that reveals aspects of past, present or future NAC customer-funded development plans and programs of potential commercial value to NAC.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version(s) of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.
