-----  
**SUMMARY**

We have conducted a preliminary review your new license application and find that we are unable to continue this action until we have received information regarding the following:

1. The application was silent as to whether PET is being used at this facility. If PET is being used, additional shielding calculations may be required.  
**RESPONSE: Per our discussions, the licensee confirmed that no PET is being used. No further action is required at this time.**
2. The Application lists Henry Shevitz, M.D., as the Radiation Safety Officer, and indicates that Dr. Shevitz has been the RSO on NRC License No. 21-32035-01. However, Dr. Shevitz is not listed as the RSO on that license. Please indicate the training and experience for Henry Shevitz, M.D., to be listed as the RSO on this license.  
**RESPONSE: Per our discussions, and the facsimile dated April 6, 2011, Henry Shevitz, M.D., has been listed as an RSO previously on NRC License No. 21-32510-01. Additional information was provided by a consultant, Ray Carlson, via phone conference on April 1, 2011. No further information is required at this time.**
3. The submitted facility diagram does not indicate what is located above and below the location of use. Please indicate this information.  
**RESPONSE: Per our discussions, the applicant noted that the facility is housed in a single story building, with nothing above or below. No further action is required at this time.**

We have requested that you submit the referenced item –

Radiation Safety Officer Qualifications and Experience; received April 6, 2011. No further information is required at this time.

– via facsimile, to (630) 515-1078. Please reference the Control No. 574554, as listed at the top of this memo. We expected to, and did, hear from you on or before the end of Monday, April 6, 2011.

**For future reference, please always include the name, phone number and fax number of at least one person whom we may contact for additional information when reviewing your licensing correspondence and requests.**
