The current complete list of Governors' designees, including addresses and phone numbers, may be found on NRC's Office of Federal and State Materials and Environmental Management Programs' (FSME) website at: <http://nrc-stp.ornl.gov/special/designee.pdf>.

Finally, NRC recognizes the importance of quick and timely communication of information to the States. NRC maintains an e-mail distribution system to provide information to the Governor-appointed State Liaison Officers and State Radiation Control Program Directors; similarly, we seek to maintain a dedicated list server for Governors' designees in order to provide non-safeguards information electronically. **Thus, we request that you provide an e-mail address so that we may communicate this information to you in an expedited fashion.** We will not publish your e-mail address in the *Federal Register*, but will use it to provide information to you in a manner that is timelier than regular mail service.

During the year, please keep us informed of changes in Governor Designee phone, address, and e-mail contact information which may arise.

Your cooperation in this matter is greatly appreciated.

Sincerely,

Josephine M. Piccone, Director

and Rulemaking

Dear Josie,

The attached letter was sent from the Governor's office to Paul Lohaus, who I understand is no longer with NRC. This letter is to appoint Rusty Lundberg to serve as the State Liaison Officer to the NRC and also as the State official to receive notifications of spent fuel shipments.

I spoke with Richard Turtill today and emailed him the attached letter, but he said to also forward the original to you.

Please let me know if you have questions.

Regards,

Debbie Oberndorfer
