Joe,
Certainly we can make that correction. We will also provide you some feedback when we determine why the standard material was not correctly integrated into our application.
Thank you for pointing this out to us.
Amy

Amy and Julie,

Do you believe that you can fix the typo below in the next revision to the Summer application?

Subject: VC Summer FSAR Chapter 3 typo

Bruce,

In comparing Levy FSAR Chapter 3 to VC Summer FSAR Chapter 3 as part of the Levy concurrence review, I found a typo in VC Summer FSAR Chapter 3, Revision 4.

On page 3.9-14 of the Summer FSAR Revision 4, there is one place where OMN-1 should be OMN-11. In the large paragraph in the middle of the page, the last sentence reads:

OMN-1 Revision 1 incorporates the guidance on risk-informed testing of MOVs from OMN-1, "Risk-Informed Testing of Motor-Operated Valves," and provides additional guidance on design basis verification testing and functional margin, which eliminates the need for the figures on functional margin and test intervals in Code Case OMN-1.

In the one place in this sentence prior to "Risk-Informed Testing of Motor-Operated Valves," the applicant should change OMN-1 to OMN-11 in the next Summer FSAR revision.

FYI, the applicable reference to OMN-11 on page 3.9-15 in Vogtle FSAR Revision 4 is correct.

Thanks.
Tom
