NRC Docket No. 70-3103

Subject: Page Changes to the LES Standard Practice Procedure Plan (SPPP)

Urenco USA, LLC (UUSA) is required to submit non substantive changes to the Standard Practice Procedure Plan for the Protection of Classified Matter (SPPP), in accordance with 10 CFR 95.19(b), to the NRC within 30 days of implementation of such changes. The Movement Plan for Transportation of Classified Centrifuge Components/Materials between Tripartite Countries and the US is an addendum to the UUSA Standard Practices Procedures Plan and UUSA approved changes to this document on March 4, 2011.

It was discovered, when these changes were being prepared for submittal to the NRC, that the changes were not incorporated into the effective version of the Movement Plan. Condition Report CR-2011-1357 was written to document this discrepancy and the timeliness of the submittal. A revision to the configuration change package incorporating the changes into the effective version was completed and approved on May 17, 2011.

Attached as Enclosure 1 is marked up pages to the Movement Plan and its appendices, Revision bars, strikethroughs and underlines were utilized. Attached as Enclosure 2 is a clean copy of the Movement Plan and its appendices. The SPPP and its attachments contains security information and disclosure to unauthorized individuals could present a security vulnerability. Therefore, UUSA requests the Enclosures be withheld from public disclosure in accordance with 10 CFR 2.390.

If you have any questions, please contact Wyatt Padgett, Licensing Manager at 575.394.5257.

Respectfully,

Allen Sorrell for
David E. Sexton
Chief Nuclear Officer and Vice President of Operations

Enclosures: 1) Marked up pages to the Movement Plan and its appendices
2) Clean copy of the Movement Plan and its appendices
