Subject: Design Parameters Table

To All,

I am making arrangement to magnify the parameter table. The prints are impossible to read even in legal size paper. I'll try to convert the file to print on 11 x 17. I'll bring you a hard copy when it is ready.

Regards

The second file is a copy of the Table of Contents UHS/RSW Pumphouse design calculation. This item was discussed and requested in last week's conference call. In summary the page count for the calculation is:
