New York, New York 10023

In the Matter of  
Consolidated Edison Company of New York, Inc.  
Indian Point, Unit Nos. 1, 2, and 3  
Docket Nos. 50-3, 50-247, 50-286

Dear Dr. Jerard:

Reference is made to your letter of April 8, 1976, in which you urge that the Indian Point Station, Unit Nos. 1, 2 and 3, seismic show cause proceeding be held in New York instead of in Bethesda, Maryland.

As you know, the first three days of the proceeding (April 21-23, 1976) were held in White Plains, New York. <sup>1/</sup> The second week of the hearing was held in Bethesda, Maryland. The presiding Atomic Safety and Licensing Appeal Board then solicited the views of all the parties as to where subsequent weeks of the hearing should be held. The licensees, Consolidated Edison Company of New York, Inc., and the Power Authority of the State of New York, the New York State Atomic Energy Council, and the Citizens Committee for the Protection of the Environment all urged that the hearings be held in New York. The NRC Staff, as is its usual practice, stated that it had no objection to the hearings being held in the vicinity of the Indian Point site. Nevertheless, the Appeal Board decided that, because of its very heavy workload on other cases, the Appeal Board members could not afford to be away from their offices during the remainder of the hearing. The hearing will resume on May 17, 1976, and will probably continue on into June.

<sup>1/</sup> I hope you will be pleased to learn that your written limited appearance statement, handed to the Appeal Board by a member of your organization, was incorporated into the hearing transcript for the day of April 21, 1976, at pages 222 through 227.
