

June 6, 2011

APPLICANT: MITSUBISHI HEAVY INDUSTRIES, LTD.

APPLICATION: UNITED STATES - ADVANCED PRESSURIZED WATER REACTOR
DESIGN CERTIFICATION REVIEW

SUBJECT: SUMMARY OF THE MAY 10, 2011, PUBLIC MEETING WITH
MITSUBISHI HEAVY INDUSTRIES, LTD. TO DISCUSS REVISION 3 OF
THE DESIGN CONTROL DOCUMENT

On May 10, 2011, a Category 1 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and representatives of Mitsubishi Heavy Industries, Ltd. (MHI), at the office of the NRC, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland. The meeting notice was issued on April 27, 2011, and was documented in the Agencywide Documents Access and Management System (ADAMS) under accession number ML111170239. The meeting notice included the meeting agenda, which was also available as a handout during the meeting. The purpose of the meeting was to discuss the Revision 3 of the United States - Advanced Pressurized Water Reactor (US-APWR) Design Control Document (DCD).

The topics discussed at the meeting were responses to the NRC's Request for Additional Information (RAI); conceptual design information; inspection, test, analysis and acceptance criteria; improvement; editorial corrections; engineering progress and simplified piping and instrumentation diagrams and layout drawings. At the meeting, MHI stated that they will include the impacts of the RAI responses regarding technical and topical reports; and will also evaluate the impacts of the DCD, Revision 3 regarding the reference combined license application and standard combined license application. The meeting turned out to be a closed meeting since there was proprietary information discussed in the presentation slides provided by MHI. A list of attendees is provided as Enclosure 1. MHI's presentation, "US-APWR DCD Revision 3" dated May 10, 2011, is provided as Enclosure 2, however, it contains proprietary information and therefore will be not available to the public.
